

## Module 10: Hands-On- Creating Organizational Units

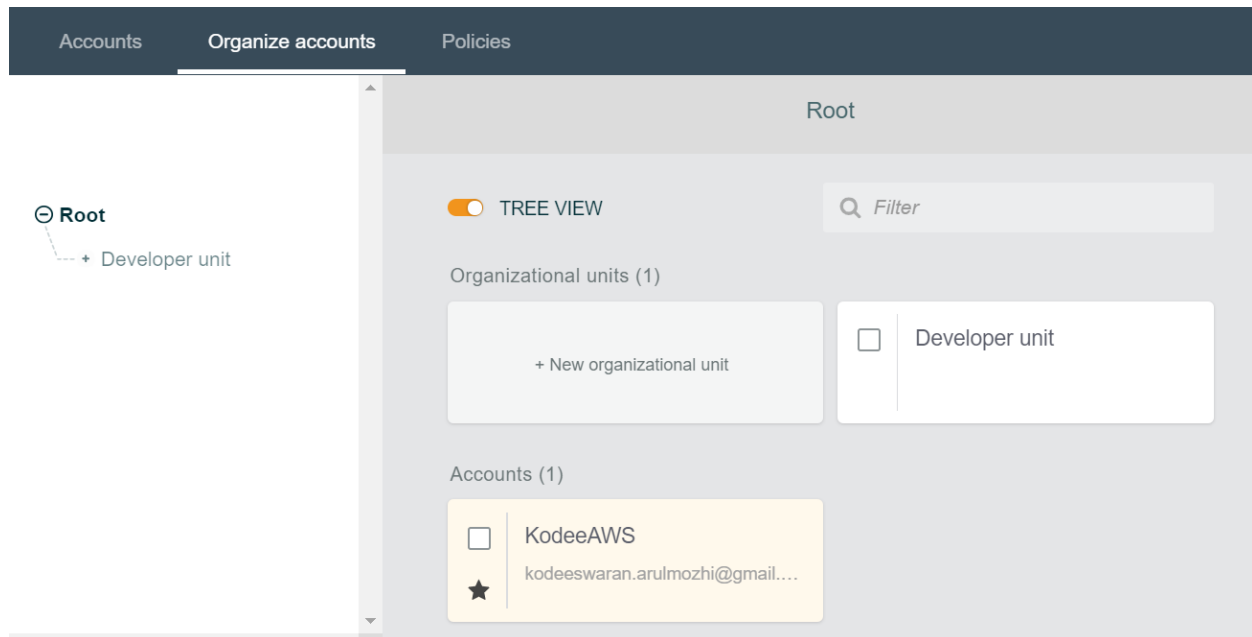

**Step 1:** Go to AWS Organizations. Then go to Organize accounts and click on Organizational Unit.

**Step 2:** Give the name of your organizational unit and click on the button

**Step 3:** Check out the dashboard to see the organizational unit (OU) 'Developer unit' which was just created

**Step 4:** Under the created OU, create 2 more OUs in the name of Web and mobile. If you have added any account other than the master account, click on it and move it to a OU.
